

# Pyrethrum Application Levels

- 9.0-24.0 lb ai/acre/year for ornamental flowering plants, woody shrubs, trees, foliage plants, and ferns
- Major River Areas
- SJRWMD Boundary
- Florida County Lines

Note: Application amounts are based upon the maximum allowed per year by the pesticide label. Where a yearly maximum was not available, three times the maximum individual application was used. To calculate lb ai/acre for liquid pesticide products, it was assumed that one pint equaled one pound.
